ISSN: 2395-0455
Volume 11, Issue 6, November - December (2024)

International Journal of Computer Networks and Applications

EverScience Publications

ISSN: 2395-0455
Volume 11, Issue 6, November - December (2024)

International Journal of Computer Networks and Applications (IJCNA)

Volume 11, Issue 6, November - December (2024) ISSN (Online): 2395-0455

Contents

Regular Papers	Page No
A Robust Security Strategy Using Hybrid Cryptography Approach to Protect Data in the Financial Sector Bilas Haldar, Partha Kumar Mukherjee, Himadri Nath Saha	749
Security Vulnerabilities in VANETs and SDN-based VANETs: A Study of Attacks Upinder Kaur, Aparna N. Mahajan, Sunil Kumar, Kamlesh Dutta	774
A Novel LPRPO-LSTDCNN Based Side Channel Attack Detection and Secure Data Transmission Framework Using DH-ATM-RFICC Prasath Vijayan, Sudalaimuthu T	803
Energy-Aware Optimization of Cloud Request Placement and Resource Monitoring Using an Evolutionary Algorithm for Cloud-assisted Systems Santosh Kumar Paul, Sunil Kumar Dhal, Rakesh Nayak, Umashankar Ghugar	821
DDoS Attack Detection in Cloud Computing Using Optimized Elman Neural Network Based on Bacterial Colony Optimization and Centroid Opposition-Based Learning S. Kalvikkarasi, A. Saraswathi	835
Implementation and Analysis of Fog Node-Assisted Scheduling and Optimization of Resource Allocation and Utilization Neha Sharma, Deepti Sharma	855
Balancing and Optimizing Network Parameters Using a Multi-Objective Hippopotamus Optimization Algorithm for Cluster-Based Routing in MANETs A. Vanaja, Jeevan L J Pinto	870
Improving Energy Consumption in Software Defined Network by Predicting Optimized Flow Routing Using Deep Learning Method Thangaraj E, Margaret Flora B	884
Enhancing Secured Data Sharing in Mobile Cloud Environments Using Self-Generative Schnorr Certificateless Signcryption Sowmya V L, Shankar R, Anitha Premkumar, Umi Salma Basha, Rajesh Natarajan	896

Threshold-Based Fuzzy Deep Q-Network for Spectrum Management in Cognitive Radio Vehicular Networks 915

Maria Christina Blessy A, Brindha S, Danesh K

Mitigating Blockchain Endpoint Vulnerabilities: Conceptual Frameworks 933

Mohd Azeem Faizi Noor, Khurram Mustafa

Design of an Integrated Model Using Hybrid Autoencoder and LSTM for Fault Tolerance and Load Balancing in Cloud Environments 954

Nahita Pathania, Balraj Singh
